To develop and provide easy-to-use, reliable, accurate and secure on-line mapping tools intended to **enhance communications that promote awareness and stewardship activities** between producers of **specialty crops, beekeepers and pesticide applicators**.

FieldWatch & BeeCheck Features
@FieldWatchInc

- Mapping & Communication Platform
- Easy to Access – Free & Voluntary to Use!
- Posting on the public map is optional – Map & contact information can be limited to applicators registered with FieldWatch (*See state regulations as there are exceptions*)
- Beehive placement can be done via GPS or manual "point 'n click" with mouse – no drawing required
- Hives are identified with a 1/2 acre circle and pin
- Beehive sites are approved & validated by the State Department of Agriculture
- Ability to add multiple hives in one submission
- "Time Stamp" feature can be used to indicate active dates in a particular location
- Flags & field signs are available for purchase for users with approved sites
- Upgraded mobile app to launch in 2018 – Easier to move hives!
