FieldWatch® is a non-profit company created to develop and operate the DriftWatch Specialty Crop Site & BeeCheck Apiary Registries. Formed in 2012 by Purdue University and interested agriculture stakeholder groups, we are funded by state departments of ag, corporate sponsors and our producer and applicator members.

DriftWatch®, BeeCheck®, CropCheck® and FieldCheck® are FREE web-based mapping tools created to promote communication between beekeepers, crop producers and pesticide applicators in support of ongoing stewardship activities.

Why FieldWatch?

- 🌱 Stewardship
- 🌱 Communication
- 🌱 Data / Knowledge
- 🌱 Voluntary
- 🌱 Free to Use – Easy to Access
- 🌱 Our Industry relies on Relationships and Respect for our Neighbors
- 🌱 Freedom to Operate

Board of Directors

PRODUCERS:

Steve Smith – Red Gold
Levi Huffman – Huffman & Hawbaker Farms
Jared Brooks – Razorback Farms
Brant Harrison – Kokopelli Produce (Treasurer)

APPLICATORS:

Scott Schertz – Schertz Aerial Service
Lisa Nichols – Nutrien Ag Solutions
Matt Haines – Piatt County FS/GROWMARK
Jason Roth – Winfield United

MANUFACTURERS:

Mark Groth – Bayer Crop Science
Elisha Modisett Kemp – Corteva Agriscience (Vice Chair)
Caydee Savinelli – Syngenta
Burleson Smith – BASF (Secretary)

AT-LARGE:

KJ Johnson – Illinois Fertilizer & Chemical Assn (Chair)
Tami Griffin – Aon Risk Solutions
Patrick Jones – North Carolina Dept of Agriculture & Consumer Services
Neal Bergman – Delta Bee Company

EX-OFFICIO:

Karen Plaut/Bernie Engel – Purdue Department of Agriculture

New Apps Launched in 2018!

✓ **FieldCheck for Applicators & Growers**

- Map: Detailed Site, Contact View, Find Sites Near Me
- Options on defined “Alert Area”
- Notification when sites added or removed
- Increased functionality and visibility
- API design to communicate with other technology platforms
- Available for FREE on Apple/Android systems

✓ **BeeCheck for Beekeepers**

- Increased functionality; ease of moving hives through GPS
- Same security functions (allows for privacy)
- Available for FREE on Apple/Android systems

Private “Annotation Layer” Launched in 2019!

✓ New “Annotation” Feature for Applicators

- Wholly owned and controlled by the applicator
- No review/approval required by State Data Steward
- To be used for sites that are “out of scope” (i.e. gardens) or for sites that don’t participate in FW
- Will not go through typical renewal process (applicator’s responsibility to update/remove)
- Ability to share and make changes to your private layer

New Annotation

✓ Name

✓ Notes

✓ End Date Never expire annotation Date annotation will expire from your private layer:

Lookup Site On Map

 I already have the map near my site's location
 Center the map using my current location

CropCheck® Row Crop Registry: Expanded Pilot Program in 2019

✓ CropCheck® expands FieldWatch scope to include Row Crops

- Developed by University of Arkansas Cooperative Extension Service for use in Arkansas in 2018.
- Offered as an “expanded pilot program” to all FieldWatch states in 2019. Three additional states adopted the platform:
 - IN, IL and NC (in addition to Arkansas)
- Corn, Cotton, Rice and Soybeans are currently accepted in the system.

*How to Use our
Stewardship Platform*

How to Sign Up!

- ✓ **Go to FieldWatch.com**
- ✓ **Click on your PRIMARY industry segment**
 - Specialty Crop Producer, Row Crop Producer, Beekeeper or Applicator
- ✓ **Follow the very simple steps to create an account & submit**
 - For Producers & Beekeepers you will map your fields and/or hives
 - For Applicators you will set an alert area
- ✓ **State Data Steward has final approval (or feedback)**
- ✓ **Site is added to the map!**

The screenshot displays the FieldWatch website interface. At the top left is the FieldWatch logo with the tagline "Communication. Cooperation. Collaboration." Below the logo is a vertical navigation menu with the following items: Home, About FieldWatch, FieldWatch Registries, Membership & Sponsorship, News & Newsletters, Resources, FAQ, Contact Us, and Order Signs. At the bottom of the page, there are four industry segment tiles: "DriftWatch® for Specialty Producers" (with a sunset over a field), "BeeCheck® for Beekeepers" (with a bee on a yellow flower), "CropCheck® for Row Crop Producers" (with a row of crops), and "FieldCheck® for Applicators" (with a crop duster airplane). The background of the website is a collage of agricultural images, including a field of yellow flowers, a sunset, a close-up of a bee, a row of crops, and a crop duster.

Growing Good Neighbors

Pilot program launched in Missouri in 2018 designed to establish good neighborly relationships, increase communication and create resilient communities with a favorable environment for conflict resolution.

- Format:** Three community dinners at local wineries in eastern, central and western Missouri taking place in early 2018.
- Participants:** Grape growers, retailers, crop growers, livestock producers, beekeepers, specialty crop growers, conservationists, etc.
- Why:** Discuss good neighbor strategies. Meet neighbors and learn about their crop locations and technologies. Become informed to avoid conflicts and build relationships to help resolve issues.
